Dear Barry

I am sorry that I have not replied to you earlier, but even more sorry that I was not able to attend your seminar last week. The incomprehensible non-delivery of the notification message and subsequent delay in my learning of this seminar just made it too late for me to change my schedule. I am very glad that Larry was able to go, however, and he tells me it was a valuable and much needed session. ~~Its good to see you at the helm and, as expected, focusing~~ on the key issues.

As for your kind invitation for several of us to visit you for specially tailored briefing and tours, all of us are enthusiastic about the idea--as I believe Larry mentioned to you. For planning purposes we are looking at May to see if we can mesh our schedules to travel to Omaha jointly during that period. Having been there on the more general tour, I assume that you have in mind about a full one-day visit. If you are thinking of more, please let me know. I look forward to getting together with you again.

With best regards,

Dear George

Thank you again for an excellent lunch, and for organizing it so that I might have an opportunity to get better acquainted with a cross-section of key NIOs. And again, to you and to them, my apologies that our previous session made us late getting to the lunch - I paid the price, in having less time to engage in a truly stimulating discussion. A thought for your consideration - it would seem to me useful for certain of the NIOs - you, Fritz, MG Nichols, Larry Gershwin, and perhaps one or two others - to come out to SAC and JSTPS for a specially tailored set of briefings and tours. We can work it with [redacted] help I'm sure - if there is interest. Let us know.

I'll be looking with great interest and expectation for the upcoming BG list - as I know you will - best of luck.

All the best
